**Monday May 13 2024 7:00 –9:00 pm**

TICE Senior Center at TICE Mall

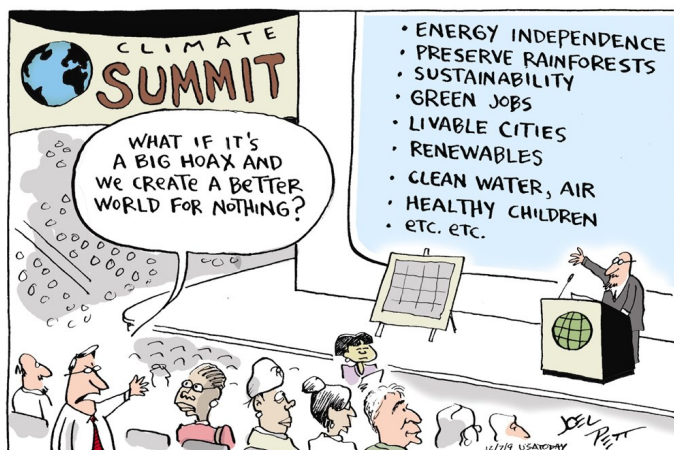

411 Chestnut Ridge Rd

Woodcliff Lake NJ

*Coffee and refreshments*

*Admission is FREE*

Please join us in a discussion on climate presented by Licensed Tree Expert Ray Slaman. He will discuss the impacts of climate change on the ecology of New Jersey, the way it is changing the flora and fauna including everyone who lives in New Jersey, and what we can do about it, both as individuals and in our communities (hint; trees). Participants will qualify for 1.5 CEU

Lecture presented by licensed and certified arborist Ray Slaman LTE 710. Ray has been involved in managing and caring for the trees in New Jersey as a founding member and president of the Dumont Shade Tree Commission and as a board member and arborist for the Demarest Nature Center. He has built the arboretum and tree nursery with a keen eye not only toward native species, but those that will be able to thrive in the changing climate. Long-term plans now must include; severe storms, flooding, extreme heat, blooming insect populations, and more.

**Woodcliff Lake Shade Tree Committee 188 Pascack Rd Woodcliff Lake NJ 07677**
