## Article V Site Plan Details

### § 292-23 **Information required on site plan.**

- A. All applications for site plan approval shall be prepared, signed and sealed by a professional engineer or architect. It shall bear the signature and seal of a licensed land surveyor as to topographic and boundary survey data.
- B. All site plans shall comply with the requirements hereinafter set forth and shall contain the following information and data, where applicable:
  - (1) A title block shall be indicated in the lower right-hand corner of the plan and shall include the name and address of the owner; the tax assessment map lot and block number of the site; the proposed name of the development; and the name, address and license number and seal of the person preparing the plan. If the owner is a corporation, the name and address of the President and Secretary shall be submitted with the application.
  - (2) A date block on the site plan adjacent to the title block containing the date of preparation. All subsequent revisions shall be noted and dated.
  - (3) A key map showing the location of the tract with reference to surrounding areas and existing street intersections within 500 feet of the boundaries of the subject premises.
  - (4) A scale of not less than 50 feet to the inch and a display of the geographic representation of the scale. All distances and dimensions shall be in feet and decimals of a foot and all bearings shall be given to the nearest ten seconds. There shall be an arrow indicating North.
  - (5) The names of all owners of adjacent properties within 200 feet of the subject premises, together with the Tax Assessment Map lot and block numbers of said properties.
  - (6) Zone boundaries within 200 feet.
  - (7) Survey data showing boundaries of the property, required building or setback lines, lines of existing and proposed streets, lot reservations, easements and areas dedicated to public use, including grants, restrictions and public and private rights-of way.
  - (8) Reference to any existing covenants, deed restrictions, easements or exceptions which affect the subject premises. A copy of such covenants, deed restrictions, easements or exceptions shall be submitted with the application. If there are no known covenants, deed restrictions, easements or exceptions affecting the subject premises, a notation shall so state on the site plan.
  - (9) Location of existing buildings on the site which shall remain and all other structures such as walls, fences, culverts, bridges and roadways, with spot elevations of such structures. Structures to be removed shall be indicated by dashed lines, and structures to remain shall be indicated by solid lines.
  - (10) All distances as measured along the right-of-way lines of existing streets abutting the premises to the nearest intersection with any other street.

- (11) Location plans and elevations of all proposed buildings and other structures, including required yard and setback areas, building height in feet and stories, lot coverage and improved lot coverage calculations.
- (12) Location, height, dimensions and details of all signs, either freestanding or affixed to a building. Where signs are not to be provided, a notation shall so state on the site plan.
- (13) Location of all storm drainage structures, soil erosion and sedimentation control devices and utility lines, whether publicly or privately owned, with pipe sizes, grades and direction of flow; if existing utility lines are underground, the estimated location of such underground utility lines.
- (14) Existing and proposed contours, referred to a United States Coast and Geodetic Survey datum, with a contour interval of one foot for slopes of 3% or less; an interval of two feet for slopes of more than 3% but less than 15%; and an interval of five feet for slopes of 15% or more. Existing contours are to be indicated by dashed lines, and proposed contours are to be indicated by solid lines.
- (15) Location of existing rock outcrops, high points, watercourses, depressions, ponds, marshes, wooded areas and other significant existing features, including previous flood elevations of watercourses where available.
- (16) All proposed streets, with profiles indicating grading, and cross-sections showing width of roadway, location and width of sidewalks where required, and location and size of utility lines according to municipal standards and specifications.
- (17) The proposed use or uses of land and buildings and proposed location of buildings, including proposed grades. Floor space of buildings and estimated number of employees or other capacity measurements, where required, shall also be indicated. If the precise use of the proposed building is unknown at the time of the application, an amended plan showing the proposed use shall be required prior to a certificate of occupancy.
- (18) All means of vehicular ingress and egress to and from the site onto public or private streets, showing the size and location of driveways and curb cuts, including proposed traffic lanes, acceleration and deceleration lanes and proposed traffic control devices. Improvements such as roads, curbs, sidewalks and the design details of parking stalls, access aisles, curb radii, direction of traffic flow and other conditions as may be required in Chapter **380**, Zoning, Chapter **332**, Subdivision of Land, or this chapter.
- (19) Location and design of any off-street parking areas and loading zones, showing size and location of bays, aisles and barriers.
- (20) Location of all proposed waterlines, valves and hydrants, sanitary sewer lines and facilities and public utility lines.
- (21) The proposed location, direction of illumination, power and time of proposed outdoor lighting as it conforms to applicable municipal standards.
- (22) The proposed screening and landscaping and plant plan, indicating natural vegetation to remain and areas to be planted, with the size, number and type of vegetation to be utilized.

- (23) Proposed stormwater drainage system as to conform to designs based on a fifteen-year storm, using a one-hour intensity of two inches of rainfall. All site plans shall be accompanied by a sketch plat showing all existing drainage facilities within 500 feet of any boundary and information as to the building, paved and wooded areas and any other conditions contributing to the calculations and methods used in determination of the adequacy of the proposed stormwater drainage system.
- (24) Such other information or data as may be required by the approving authority in order to determine that the details of the site plan are in accordance with the standards of Chapter **380**, Zoning, Chapter **332**, Subdivision of Land, and this chapter.
- (25) Such other information or data as may be required by the approving authority in order to determine that the details of the site plan are in accordance with all other applicable municipal, county, state and federal laws, ordinances and regulations.

B. Escrow Fees for all Applications Before the Zoning Board.

Upon receipt of an application requiring professional services, the Board Secretary shall send a copy of the application to the Municipal Engineer and the appropriate professional consultants.

Within seven days of receipt of a copy of the application, said professional consultant shall submit an estimate of the funds sufficient to pay for the technical reviews, reports and other services they deem will be necessary concerning the application. After receipt of such estimated fees, the approving authority shall determine the funds necessary to pay its professional consultants for anticipated services to be rendered concerning the application, and the applicant shall forthwith deposit the required funds with the municipality to be maintained in an escrow account to be used for the payment of professional services rendered to the approving authority by its consultants in the following manner:

- (a) the professional consultant shall submit vouchers to the municipality for the services and upon approval of the approving authority, the voucher shall be paid from the applicant's escrow account. The applicant may request of the approving authority copies of vouchers submitted for payment from the applicant's escrow account and may request the opportunity to be heard by the approving authority concerning such vouchers prior to being approved for payment.
- (b) the balance remaining in the applicant's escrow account upon final action on the application shall be returned to the applicant.
- (c) in the event the funds deposited by the applicant are found to be insufficient to pay the approving authority's professional consultants for their services, the approving authority may require the applicant to deposit additional funds with the municipality for that purpose.
- (d) the Board Secretary shall notify the approving authority's professional consultants when the escrow deposits have been made and that they may begin their reviews of the application.
- (e) the approving authority shall take no formal action concerning the application unless the application fees and escrow fees have been paid to the municipality.

Ch. 37-29 C. (2) shall be amended as follows:

An application shall not be deemed complete unless the Municipal Engineer of the Board to which the application has been made shall have certified in writing that the application is complete.

Severability All provisions of this Ordinance are severable. If for any reason, any provision of this Ordinance is held to be invalid, the validity of the remainder of the Ordinance shall not be affected.

Effective Date. This Ordinance shall become effective upon final approval and publication, pursuant to law, and upon completion of all outstanding cases.
