Motion to approve the Minutes of March 2, 2020 (Open) was made by Council President Singleton, second by Councilwoman Gadaleta and approved by Councilman Falanga, Councilwoman Gadaleta, Councilwoman Gross, Council President Singleton and Councilman Spelling.

MAYOR'S REPORT

Mayor Rendo stated that he is going to be brief because he wants to turn it over to our Borough Administrator, OEM Director and Chief of Police. Mayor Rendo stated that he is going to include correspondence into this report. He received an email from Bert Taylor regarding the Corona virus and future festivals. Mayor Rendo stated that this will be addressed. Another email received was from Alan Bachman regarding the development in Saddle River. Mayor Rendo stated that he will pass this along to the Council and Administrator to respond later because we have an abbreviated meeting to be home by 8:00 PM pursuant to the Governor's curfew.

ADMINISTRATOR'S REPORT

Administrator Padilla stated that we have with us tonight our OEM Coordinator Raphael Maurrasse and Chief of Police John Burns. We are hoping to meet regularly as we prepare. Mr. Padilla will have some suggestions and some of the actions that we have already taken. Borough Hall is closed to public traffic. That does not mean that government is closed. On the contrary, government is very open because we need to be here for our folks. What it does mean is that we need to concentrate all our efforts on the most critical needs and that is obviously public safety, health and the safety of our residents. Working with our DPW, going further into the week, we will issue guidelines with respect to our ecology center. Mr. Maurrasse is in the process of finalizing our State of Emergency Declaration Order. We are all in this together. This is happening to every community, not only in Bergen County and not only in New Jersey. We will listen to our health professionals, work with our law enforcement and do what is best. We are asking everyone to cooperate. Social distancing is important. This is the reason we took the steps to have this meeting in this fashion and we will likely continue to do so for the foreseeable future. Our building department, we are only going to process and do inspections that are necessary. Our schools have already gone into a virtual schooling environment and that will continue for at least 2 weeks. This is going to affect a lot of our planned events. We have been in contact with our sports associations. Sports activities have been postponed. No organized participation on Borough fields. We need folks to stay at home. Council President Singleton stated that there were 10-12 kids playing basketball at the middle school. We are asking parents to speak with your children and keep them home. Public gathering is not allowed. No play dates, no sleepovers. Young folks are not immune to this. They can carry the virus. We are doing this to prevent the spread. The infection continues to grow. As of this afternoon, the count is up to 62 in Bergen County and many more folks are getting tested. Bergen County will be opening some time next week a drive-thru testing center. That is not for us to go and be tested. This will be on an appointment basis. Keep checking the Borough website and sign up for our alerts. We are trying to push this out every which way we can. Please check on your neighbors. There will be another virtual meeting tomorrow night between the Pascack Valley Mayors, Administrators, OEM Directors and possibly some other folks. We are probably going to make some changes regarding the ecology center. We tried to put some safeguards in place the other day to limit the amount of folks inside the area. We are trying to avoid social interaction. We will most likely look to close the ecology center. We are going to look at picking up the recyclables once a month.

We do not have the manpower to do it more than that. Mr. Padilla stated that people should like at place "Shop at Home" orders with the supermarkets.

Mayor Rendo thanked everyone for cooperating with our Orders. Please continue to do so. These are coming of our Governor and County Executive. These orders are in place to save lives.

Mayor Rendo thanked Council President Singleton and Administrator Padilla. As you saw last week, they gave a Facebook Live presentation on the emergency response. They will be meeting on a regular basis. The Council will continue to have their meetings as such. We might go into a virtual meeting depending on how serious this is. The Mayor, Council President Singleton and Administrator Padilla will be LIVE every Monday night at 7:00 PM to give updates on the current situation on the virus. Tune in to Channel 37 or 77 at 7:00 PM on Monday nights to watch and listen. Whatever information we are legally able to give out, we will.

Council President Singleton stated that he will ask Chief Burns and OEM Coordinator Maurrasse to also sit in on the Monday night meetings depending on what is going on. It is important that we deliver the message going forward until we are past this crisis.

OFFICE OF EMERGENCY MANAGEMENT REPORT

Mr. Maurrasse stated that the State of New Jersey, and this Country, is in a crisis. People are going to be diagnosed with the Corona virus. Currently, as of this afternoon, we had no cases, but that can change because testing is not available. People that work in our Borough and get diagnosed with it, does not count for our Borough. The Health Department is not going to notify us that we have a case. Mr. Maurrasse stated that people that have been self-quarantining themselves at home, they don't count either because they have not been diagnosed yet. Everyone should be washing their hands and keeping the safe distance. This is an active situation. Nobody is going to have up to the minute current information readily available. The County government needs to do their investigation and their findings before we are notified. It doesn't matter if you are a Republican Democrat or Independent, we are all in this together. We are doing everything that we can. We have closed the Senior Center. Mr. Maurrasse has been in contact with all our special needs and special populations within the Borough, which is nursing homes and group homes. As of now, nobody is reporting that they have any cases as far as our nursing homes are concerned. Administration, police, fire and EMS are all doing their part. Everyone needs to maintain the 6-foot radius and enjoy each other while you are at home.

CHIEF OF POLICE REPORT

Mayor Rendo stated that the Attorney General is drafting some regulations for law enforcement to follow.

Chief Burns thanked everyone for having him at the meeting tonight. The police department and all departments are all working very hard with the matter we have at hand. We are continuing to work very hard with a common-sense approach. Everyone knows how drastic this is. One of

the things that we face as first responders, whether it be police, fire or EMS, is going into a situation where you don't know. Common sense approach is that we have situations that is based on everyone having a gun. Everybody that they come in contact with can potentially harm one of his officers or one of the EMS people. We have taken measures to protect everyone. We are putting in strategies with our dispatch center and screening the calls before an officer arrives on the scene. When our officers do arrive; we are doing our own triage before entering a home or dwelling. We may not send 2 officers into your home because of the possibility of contaminating the officers. We continue to ask for as much knowledge as the public can give us before we respond to a call. It is important that the dispatcher gets the information and the officer on scene gets as much information as they can to assess the situation. The Mayor, Council and Administrator have been working very hard coordinating with the rest of the Borough officials putting these meetings together and getting the information out on our websites. Please go on the Borough website and educate yourself.

Mayor Rendo just wanted to remind everyone that the reason for the directive is not to have a large congregation of people meeting. That means no weddings, communion parties, etc. Mayor Rendo also stated that he is not performing any wedding ceremonies in the near future. We are in a State of Emergency and need to follow protocol. Please stay in your homes and work from home. Mayor Rendo stated that he cannot stress it enough how serious this is. Follow the curfew as well.

Subject: Town Council Question regarding Saddle River

To the WCL Town Council:

Thank you all for your time on this so far, especially now when we are all concerned about the national emergency that was just declared. We are confident that one of your top concerns will be for the safety of all of our residents. We know that you have our best interests at heart and believe that in light of recent events it is time to come together as a community to obtain the most favorable results possible for this town with regards to what Saddle River is currently proposing.

Please note that the question below is meant to gain a better understanding of how we can best effectuate change.

Why have we not hired a planner and an engineer so far to establish what can be built on the property and what can't be built? The fact that there is no specific site plan as of yet should not prevent us from being proactive. The reason our findings from these reports matter is that WCL would then be fully informed as to what realistically can or can not be built on the property. Once WCL understands what can be built on the property we can potentially protect any negative ramifications on the proposed project.

Thank you,
Alan Bachman
WCL Resident

Subject: Question for Monday night council meeting 3/16

I thank the mayor / council and administrator for their timely notices about the Corona virus and it's impact on Woodcliff Lake. The video link on the website was informative and timely. I commend you on the job and anticipate additional videos as we battle the virus.

The resolutions for the spring festival and seasonal help for pool and activities. They need approval now but can I assume each position we be re-evaluated as the season progresses and be postponed if the virus situation warrants it ?
